OFFICE OF THE SANITARY COMMISSIONER IN MYSORE,

Bangalore, Dated the 24-7-1909.

From

Lt.Col.John Smyth,M.D., I.M.S.,
Sanitary Commissioner to the Government of
His Highness the Maharaja of Mysore,
BANGALORE.

To C.S.Balasundram Iyer Esq. B.A.,B.L.,
Secretary to the Government of
His Highness the Maharaja of Mysore,
General and Revenue Departments,
BANGALORE.

Sir,

I have the honor to invite the attention of the Government of His Highness to the necessity that exists for all appointments to posts in the Public Health Department being subjected to the Sanitary Commissioner's scrutiny before being confirmed, and that without such scrutiny no such appointment be made. The difficulty at first in the matter of appointing Sanitary Inspectors was the existence of work-overseers and other unqualified persons doing -- sanitary overseers' work. It was not known what should be done with these men, so as to make room for qualified men. But when such men gradually disappear, surely their places should be taken by qualified men. But I have reason to believe that such is not always done, other influences being at work.

When a vacancy occurs, it should always be reported to the Sanitary Commissioner, who would then forward names of qualified persons, and from these and any other qualified persons the selection should be made. But before the appointment is actually made, as I have said above, the

Department of Public Health in Mysore.

Sir

Reference Govt. Pro. No. 1586 of 12-8-09.

I have the honor to say that I think there is some slight misunderstanding. It affords me great pleasure to state that the Presidents of District Boards co-operate with me most cordially in this matter of appointing Sanitary officials, but I think it will be agreed that should a President appoint an official whose name is not in the -- Sanitary Commissioner's list, and as it is most desirable that the Sanitary Commissioner should know first-hand what the ~~general~~ exact qualifications of every sanitary official are, the certificates of all persons so appointed should be sent to the Sanitary Commissioner for scrutiny and record. This procedure need not be taken to mean that Presidents would wittingly employ unqualified men; it is merely a -- matter of business, suggested by common sense, that the Sanitary Commissioner should know first hand what the qualifications of every sanitary official are and have a record of them in his office.

It will be seen, I hope, that I have not the slightest idea of objecting to a President appointing sanitary officials
